#### **Buy Bonds** where you work. He does.

Why do our servicemen buy U.S. Savings Bonds? Their reasons are the same as yours and mine: aneir reasons are the same as yours and mine: saving for the future, supporting freedom. And because they're fighting for freedom, too, maybe servicemen see the need more clearly than many of us. Buy Bonds. In more than one way, it makes you feel good.

Savings Bonda now pay 4.25% when held to maturity—and Freedom Shares (sold in combination with E Bonds) pay a full 5%. The extra interest will be added as a bonus at maturity.

And now you can buy the Bond/Freedom Share combination any time—no monthly commitment necessary. Get the facts where you work or bank.

#### Almost as fast as Granatelli's STP Turbocar!

When it comes to speed, few things are faster than Andy Granatelli's STP #40 turbocar. In the 1967 Indianapolis 500, Parnelli Jones drove it to within seven miles of victory before a jammed ball bearing knocked it out of the race.

It's this kind of speed that best illustrates the new one stop Illinois license plate service at It's Inis sind or specific trait eest illustrates the new one stop illinois license plate service at First National Bank of Des Plaines, Starting December 1st, just brig in your 1968 regis-tration card, license fee, and the pre-typed 1969 application form— or fill one out in our lobby. We'll notarize the form and present you with your new plates—all in one stop— for a service charge of only \$1. No need to make a second trip tomorrow or the next day to pick up your plates

Granatelli's turbocar may be the fastest thing on a race track, but the fastest license plate service in town is at First. Come in and clock us.

#### African Violets In New Varieties

Scores of new varieties of African violets have been developed over the past decade or so, the Society of American Florists says. The Blue Warrior is particularly attractive because of its habit of putting up all blooms at the center, like a fastidiously arranged nosegay,

Join the African Violet Society, and you will be trading leaves with collectors the country over to increase your treasury of varieties.

Light, water, temperature, and feeding are the big four keys to success with African yiolets. The plant prefers temperatures of 70 to 72 degrees. Growth is slowed down, when house temperatures drop below 60 degrees.

The best soil mixture is one-third each of course sand, garden loam, and of humus, leaf mold, or peat moss. Good, strong electric light actually substitutes for daylight with African violets, but if it is accessible, hatural light is also delirable.

An east or west window in usually best for Africar violets, as direct rays of south sun may burn leaves. Water when top soil feels dry.

## One - Family Homes Not Burden

Rid Your Home of Octopuses

In there an octopus in your home? A real one would be a deagerous pet, even if you kept it in the bathub or other water-souked grid. The "octopus" we'r talking about it even more dangerous to the unwary homeower. It's the coulier in your home trick to coule in your home trick to coule in your home trick to be that you hook up a lamp, a maio, and several other spollances.

# Welcome to our new, exclusive 1/10% Mortgage Interest Rate

We've broken with the traditional 1/4% increments for variations in home loan interest rates. Our new 1/10% progressive rate structure will provide a new flexibility to assure home buyers of the most equitable rate at all times. And it can provide considerable savings over the term of a mortgage depending upon the original down payment. It's just another example of

easier and more enjoyable. Bell is known for making the best possible commitment on the best possible terms. With careful attention to the details that can reduce the immediate cash outlay for home buyers. And offering such items as pre-payment privileges and open end provisions tailored to your needs.
